

## Gladstone Primary School

Dear Parent,

The photographing and filming of children during school events is an important aspect of school life. Parents and children like to see photographs and video footage of concerts, sports days etc. Occasionally we may take photographs or video footage of your child in and around school, for publishing in the local newspapers and for use on our website and others. On occasions, photos will be taken by visiting artists, press officers or other external parties with an interest in school activity.

**As most newspapers now have websites and may use the photos we send on them, we can no longer use your child in any press coverage for the school unless your child has consent for media and web.**

We need your consent to use your child's image for media purposes including use on recognised websites.

Please can you complete the form below to give consent for your child being photographed or filmed for the above purposes.

Regards,

Mrs C Newman

Name of Pupil: \_\_\_\_\_ Class: \_\_\_\_\_

Please circle your answer

Do you give consent for your child's image to be used for media purposes, understanding that these images could be published on recognised websites.

**Yes**

**No**
